Advancing Quality Assurance

Challenge 2

Programming <u>Fun</u>damentals: *Decision Making*

Your topics to learn about are:

1. Relational and logical operators

2. If/else statements

3. Switch statements

asos
QA community

Your challenge is to:

- Create two console applications that demonstrate the topics you've studied

- They can be a single method in a single class, but they must:

  – Accept input from and print out to the console

  – Perform a decision based on the input

  1. Using *if, else* decision statements

  2. Using *switch* decision statements

1. Zip up your code

2. Drop it: https://asos1-my.sharepoint.com/personal/neil_syrett_asos_com/Documents/QA++/Group2/CodeDrop/Challenge2

3. Attend the next QA++
